World Leader in Debit Card Technology

World Leader in Debit Card Technology

About InterCard

InterCard, Inc. has been engineering and providing systems since 1979 and has grown to become a market leader in stored value cards for retail and other applications in North America, Asia, Europe, the Middle East, Africa, South America and Australia. Thousands of readers, millions of cards and hundreds of systems later, InterCard is still providing the best systems available. By using the latest in proven technology that is user friendly, we provide a level of reliability that is unparalleled in our market.

InterCard saves operations tremendous cost by reducing theft, controlling costs, tracking customers and monitoring inventory and revenue streams over time.

InterCard, Inc. — World Leader in Debit Card Technology!

World Leader in Debit Card Technology

Products & Services

Since 1979, InterCard, Inc. has been a full-service resource for the stored-value card needs of a variety of industries. Gaming, Amusement, Gift & Loyalty Cards, Redemption, POS Systems, Campus Card Networks—any industry or business can benefit from an InterCard stored value card system, and realize new levels of marketing opportunities, management control, system efficiency and increased revenue.

Whether you have one business location or 100, InterCard will strategically employ our extensive experience and advanced tools that will truly maximize customer potential and generate a solid return on your investment.

InterCard
has provided
Cash
Management
and Marketing
Solutions
to the
Amusement
Industry
Worldwide.

Amusement Industry

Whether you have one entertainment center or 100, the InterCard FEC Management System is the system of choice for the amusement market.

With a verifiable return on investment, the InterCard system provides a full customer loyalty program, a complete POS system, redemption inventory control functions, stored value card promotions and an impressive array of management reporting capabilities.

• Reliability

Our Zero Fault Tolerance System allows readers to operate even when the main server is down. When online, our readers produce less-than-one-second activations. When offline, they store account information and communicate flawlessly Peer-to-Peer. In nearly 30 years of operation there has never been a single system failure!

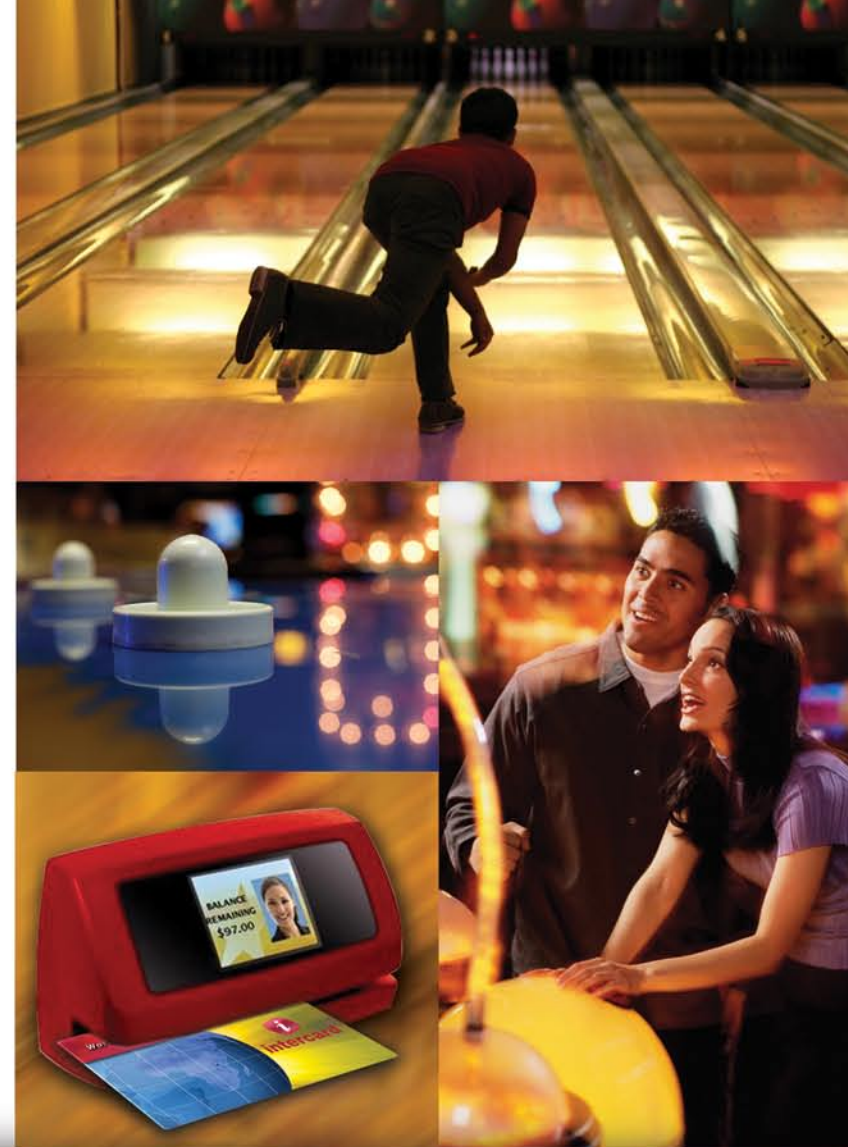

• Simplicity

With InterCard's Single Database Solution, customers can activate cards at any one of your locations and then use them anywhere else. InterCard systems use standard Ethernet and Star-Topology: the most universal, stable and cost-effective solution available.

Our One-Card-Solution is the most technologically advanced, reliable and comprehensive system you can find - made simple & effective by InterCard!

• Total Solutions

InterCard provides our clients with a one-of-a-kind, industry exclusive Combined Debit Card System. Our system increases revenues up to 30% by bringing in more customers, enhancing their on-site experience, and providing detail reports of their spending activities.

Point of Sale Software

Our One-Card POS Software solution increases revenue by providing customers with an easy way to pay for food, drinks, games and attractions.

Loyalty Program

InterCard's customized Loyalty Program allows customers to view earned points, rewards and prizes at kiosks or on your website with an easy-to-use interface.

Wireless

InterCard's iReaders™ offer multilingual displays, interactive graphics and a wireless option. Our Self-Service iTellers™ dispense and recharge cards quickly and easily. Our easy-to-use Point-of-Sale software allows attendants to provide the ultimate in customer service.
